DOCUEMENTATION SHOWING RESPONDUS DOES RECORD YOU

Respondus®
Assessment Tools for Learning Systems

About | News | Webinars | Support | Contact | Customer Login

Solutions for Higher Ed 

Respondus Monitor® is the leading remote proctoring solution for higher education. It allows students to take online assessments from a remote location - all while ensuring the integrity of the exam process.

Builds upon LockDown Browser

It starts with LockDown Browser, a custom browser that locks down the testing environment within a learning system. Students cannot print, copy, access other applications, or search the internet during an online exam.

Fully-Automated Proctoring

Respondus Monitor is a fully-automated proctoring solution. Students use a webcam to record themselves during an online exam. Afterward, flagged events and proctoring results are available to the instructor for further review.

"Auto-Launches" from any Browser

After a quick one-time installation, Respondus Monitor launches from the student's preferred browser (Chrome, Firefox, Safari, Edge) whenever the exam settings require it. Students are then guided through a pre-exam sequence, including a webcam check.

Integrates Seamlessly with LMSs + Publisher Systems

Respondus Monitor integrates seamlessly with learning systems like Canvas, Blackboard, Moodle, Brightspace, Schoology, Pearson MyLab, and McGraw Hill ALEKS. Students access exams within their learning system as they normally would. Instructors do everything within the learning system too, including the post-exam review of proctoring results.

No Scheduling or Registration

There's no need to schedule a proctoring session in advance. Students and instructors don't even have to register at the Respondus website.

Supports most Devices 

Respondus Monitor isn't just a browser plugin. It offers a native, feature-rich experience for Windows, Mac, Chromebook and iPad devices.

One technology, *lots* of flexibility.

6 **Academic Integrity**
7

The Lone Star College System upholds the core values of learning: honesty, respect, fairness, and accountability. The system promotes the importance of personal and academic honesty. The system embraces the belief that all learners – students, faculty, staff and administrators – will act with integrity and honesty and must produce their own work and give appropriate credit to the work of others. Fabrication of sources, cheating, or unauthorized collaboration is not permitted on any work submitted within the system.

The consequences for academic dishonesty are determined by the professor, or the professor and academic dean, or the professor and chief academic officer and can include but are not limited to:

- Having additional class requirements imposed,
- Receiving a grade of zero or "F" for an exam or assignment,
- Receiving a grade of "F" for the course,
- Being withdrawn from the course or program,
- Being expelled from the college system.

12 **Conflict Resolution**

If you have an issue with any aspect of the class (grading, policies, instructor behavior, etc.), please discuss the issue with your instructor outside of class time. If you cannot resolve the issue with your instructor, you may contact the department chair to further discuss the matter.

14 **Department/Division Contact:**

16 **Guidelines for Proctored Exams**

This course will utilize the Respondus Lockdown Browser system to digitally proctor exams. Here are a few guidelines/reminders so that there are no misunderstandings throughout the term:

1. Ensure you are in a quiet environment by yourself. If anyone else is heard or seen in the room with you, you will be flagged for cheating.
2. No notes or other materials are allowed during the examination. This also means no phones!
3. Keep the facial recognition "on" throughout the exam. If it is alerting you that you are not being recognized you need to adjust your positioning. Your entire face must be visible at all times.
4. Please wear clothes during your exam. Yes, this does happen.
5. Please keep your eyes on the screen. Any gazing away from the screen repeatedly will be flagged as cheating.
6. Be thorough with your 'environment sweep'.
7. Turn all other distractions off.
8. You are not allowed to get up and walk around/answer phones/get a drink, etc once you begin the exam.

9 Hi Michael. None of the Connect assignments
10 (other than the lab practicals) are timed
11 assignments.

12
13 In regard to the lab practical. This test is cannot be
14 administered at the assessment center. Therefore I
15 have removed the proctoring for you. I did have
16 to create a hidden copy of the test for you that is
17 password protected. This had to be done to avoid
18 other students getting confused as to which test
19 to take. The password is 'golgi'. Therefore, when
20 you want to take the test I will need to make it
21 visible to you and hide it as soon as you are done.
22 I need a few hours of notice during regular
23 business hours to do so. Please let me know when
24 you want to take the lab practical. Also use the REMIND app to tell me when you have completed
25 the exam.
